A Supervisory Reporting and Public Disclosures

1. Supervisory flexibility regarding deadlines

On 20 March 2020, the European Insurance and Occupational Pensions Authority (EIOPA) issued recommendations for the insurance sector regarding the Coronavirus/COVID-19 situation, in accordance with Article 16 of Regulation (EU) 1094/2010. Recommendations are based on Directive 2009/138/EC (Solvency II Directive) and EIOPA's guidelines and other relevant EIOPA instruments and are addressed to the competent authorities.

Considering the likelihood that insurance and reinsurance undertakings may face increasingly difficult conditions in the immediate future in terms of navigating through challenging market conditions, EIOPA considers that insurance companies need to concentrate their efforts on monitoring and assessing the impact of the Coronavirus/COVID-19 situation as well as ensuring business continuity and therefore EIOPA announced recommendations on supervisory flexibility regarding the deadlines of supervisory reporting and public disclosures.

Based on the above, the Insurance Companies Control Service in Cyprus provided the following deadline relaxations related to annual supervisory reporting and public disclosures:

- 8-week delay (to 2 June 2020) in the submission of the annual Quantitative Reporting Templates (QRTs) for the year 2019, with the exception of the following QRTs Content of the Submission (S.01.01), Basic Information (S.01.02), Balance Sheet (S.02.01), Own funds (S.23.01) and SCR calculation (S.25.01) which are to be submitted (unaudited) by 21 April 2020; and
- 8-week delay (to 2 June 2020) for the publication of the Solvency and Financial Condition Report (SFCR) for the year 2019, with the exception of the following QRTs Balance Sheet (S.02.01), Own funds (S.23.01) and SCR calculation (S.25.01) which are to be submitted (unaudited) by 21 April 2020. These unaudited QRTs can be found in Section B of this report.

2. COVID 19 Implications

According to Article 55 (1) of the Cyprus Insurance and Reinsurance Business and Other Related Matters Law, in the event of any major development affecting significantly the relevance of the information disclosed in accordance with Articles 51 and 54 of the Law, insurance and reinsurance undertakings shall disclose appropriate information on the nature and effects of that major development. Based on this, the Company makes the following disclosures:

With the recent and rapid development of the Coronavirus disease (COVID-19) outbreak the world economy entered a period of unprecedented health care crisis that has already caused considerable global disruption in business activities and everyday life. Many countries have adopted extraordinary and economically costly containment measures. Certain countries have required companies to limit or even suspend normal business operations. Governments, including the Republic of Cyprus, have implemented restrictions on travelling as well as strict quarantine measures.

Industries such as tourism, hospitality and entertainment are expected to be directly disrupted by these measures. Other industries such as manufacturing and financial services are expected to be indirectly impacted and their results to also be negatively affected. The financial effect of the current crisis on the global economy and overall business activities cannot be estimated with reasonable certainty at this stage, due to the pace at which the outbreak expands and the high level of uncertainties arising from the inability to reliably predict the outcome.

In Cyprus, on 15 March 2020, the Council of Ministers announced that Cyprus is entering a state of emergency considering the uncertain situation as it unfolds daily, the growing spread of COVID-19 outbreak and the World Health Organization's data on the situation. To this end, certain measures have been taken with a view to safeguard public health and ensure the economic survival of working people, businesses, vulnerable groups and the economy at large.

New regulations have been announced to protect the population from a further spread of the disease which tighten the entry of individuals to the Republic. Additionally, it was decided that a considerable number of private businesses operating in various sectors of the economy would have their operations suspended until the end of April while unnecessary movements are prohibited.

The objective of these public policy measures is to contain the spread of the COVID-19 outbreak and are expected to result in a partial business disruption also for the General Insurance of Cyprus Ltd ("the Company"). The Management of the Company has considered the unique circumstances that could have a material impact on the business operations and risk exposures of the Company and has concluded that the main impact arises from:

- Operational risks, from unavailability of personnel;
- Business risks, from decrease in premium production due to closure of businesses and decrease in tourism;
- Underwriting risks, from increase in claims costs;
- Market risks, from volatility in investments' values; and
- Credit risks, from increase in expected credit losses due to overdue premiums.

Taking into consideration the main areas affected as identified above, the Company's Management is assessing the impact of COVID-19 on its business operations and the Company's solvency, profitability and liquidity positions on a continuous basis, by incorporating downside scenarios and stress tests using various assumptions.

From the analysis performed to date, no additional liquidity and/or capital needs have been identified. The Management of the Company will continue to monitor the situation closely and assess the need to take any additional required measures in case the period of disruption becomes prolonged.

The incident is considered a non-adjusting event and is therefore not reflected in the recognition and measurement of assets and liabilities in financial statements for the year ended 31 December 2019.

B Quantitative Reporting Templates

The following unaudited QRTs are publicly disclosed with reference date 31 December 2019:

Appendix	Table code	Table Label
